Summary

Highly motivated and hard-working Web Designer with 2 years of experience in creating user-friendly websites, mobile applications, and UX designs. Experienced in user-testing, GitHub collaborations, user flow, navigation structures, high-fi wireframing, reactive design, and optimizing website performance. Always looking for new ways to improve and expand my skills.

Work Experience

App Designer/Developer   Nov 2022 - March 2023

- Designed hi-fi wire frames for various recording and note taking mobile applications using Adobe XD and Figma software's (including functionality such as checklists, record management, and account settings).

- Conducted user testing to improve design elements, experience, and seamlessness.

- Developed basic e-commerce and recording applications with React, allowing functionality such as adding items to be sold, adding total values in a shopping-cart, and uploading images/records to be stored.

- Utilized various resource libraries for the implementation of icons.

AR XD Designer   Sept 2021 – May 2022

- Designed functional, hi-fi Adobe XD prototypes which include menu's, UI, and navigational elements.

- Produced logo's, icons, backgrounds, and button designs via Photoshop.

- Performed various user-testing protocols to document bugs/issues for effective redesign and simplification of UI and navigation.

Personal Project – Restaurant Website   Sept 2020 – April 2021

- Produced a fully designed restaurant website for a fictional location complete with social media tags, form elements, CSS styling, and more.

- Utilized creative commons imagery and self-produced icons/images for the throughout the various pages.

- Created fully functional navigational elements, appropriate linking to resources, and an online ordering system.

Education

Bachelor of Arts - BA, Digital Media
University of Central Florida - *(August 2021 - December 2023)*

Associate Degree, Graphic Design
Seminole State College of Florida · *(August 2019 - May 2021)*
